- and more...

Message From the Lake District Trustees

Dear Lake Delhi Property Owners and Supporters:

We felt it time again to give everyone an overview and update on the key areas and initiatives since our last written update.

First, we want to thank Charlie and Mary Cunliffe for taking the time to express the Lake Delhi way of life in the “*We Will Be Back: The Lake Delhi Story*” that premiered on June 18th. I think it goes without saying, but the movie brought back many great memories of spending time at Lake Delhi and some not so great memories of the flood of 2010 including the breach of the Dam. Our Lake Delhi community is indebted to the work that Charlie and Mary did to represent what Lake Delhi means to all of us and we sincerely appreciate it. In case if you, family or friends missed it, you can purchase DVD copies of the movie at www.lakedelhiwewillbeback.com.

Second, we want to thank the Community Fund to Rebuild Lake Delhi team for hosting a great event that so many of you attended at Pin Oaks the evening of May 18th. The turn-out was estimated to be over 300 and for those who were able to attend we hope you walked away with additional information that covered a variety of topics. For those who couldn’t attend, the highlights of the evening event were:

- Recognized Charlie and Mary Cunliffe for the Movie. They shared additional footage not seen in the movie along with recognizing a couple of folks who went above and beyond in helping make the movie.
- We had an opportunity to recognize many special guests: Maquoketa Valley School District, Chamber of Commerce, Good to Great Committee, Delaware Economic Development, Area Businesses, DNR, Delaware County Officials and former and current State Legislators.
- An opportunity to share with everyone some of the events that occurred since the breach of the Dam to share with you how

busy we all have been as a community to keep our lake restoration efforts moving. (See attached Timeline on Page 9). As you review, not all events or actions were given as we tried to keep it at a high level.

- Our hired consulting firm and head Dam engineer were able to attend and gave an overview on where we are at in the Design stages, permitting process, and also shared a few 3D images of what the Dam/Spillway will look like. (See attached)
- The Community Fund to rebuild Lake Delhi reviewed our current efforts for private fund raising and also recognized multiple parties for their participation. They delivered a very important message that we still need to raise funds to assist with the full restoration of the Lake other than just simply the Dam and Spillway.
- The announcement of the Lake Delhi *Voice*: A newsletter from the Lake Delhi Taxing District and Community. The newsletter you are reading now.
- Reviewed the Manchester Whitewater Park attraction details that our neighboring community in Manchester is hoping to get started on in the near future. This will be a great addition to the Maquoketa River and will bring additional economic and recreational value to our regional community.
- Abigail Frerichs entertained us with her musical talents and sang the famous “*Dare you to move*” which is so inspirational and fitting for our efforts. Thank you Abby!

Dam Reconstruction / Lake Restoration Update:

- **The Trustees are focused on getting permits and the work required to get the permits:**

As you all know from our previous updates, much of the work for Phase I cannot commence until the actual federal permits are issued from the Federal Government/Agencies. Essentially, the process was going as expected with the United States Corps of Engineers (USACE) earlier this Spring. USACE, at that time, was the lead federal agency. However, since FEMA could be a financial contributor in grant reimbursements to the District, FEMA has now taken the lead. Since FEMA is catching up on what the USACE and Iowa DNR have done in the permitting world, this has impacted the timeline for granting permits from the USACE and Iowa DNR as well as Phase I and II construction efforts. Although FEMA has no regulatory authority in issuing permits, they do have the authority to review all construction tasks, as well as environmental and historical aspects of Lake Delhi. Due to this unforeseen turn of events where FEMA has taken over as the lead federal agency, the Trustee FEMA team, Stanley consultants, our Lobbyists, and our

LAKE DELHI VOICE

Monthly Newsletter of the Lake Delhi Taxing District and Community—June, 2013 Page 2

Iowa Homeland Security team have worked tirelessly to provide additional information for FEMA to keep things moving forward as quickly as possible.

As you can probably imagine, each federal agency involved in this process brings with its own methodologies, requirements, input, and timelines that it will work within. We continue to support any additional requests that FEMA and other federal groups have and continue to advocate for quick responses. In the meantime, we continue to work simultaneously in other key areas such as the Phase II design work which is very near to completion. Once complete and reviewed, we can start the process for submitting a request for a required permit by the Iowa DNR. (As a reminder we didn't need a permit Phase I from the DNR but we do for work relating to Phase II.) This application for permit will include not only the full design details of the Dam reconstruction and new spillway, but also a comprehensive operating plan for the facility and Emergency action plan of which are all required to get a permit from the DNR. In addition to Phase II designs, we will continue to adapt our bid package for Phase I work so that we can start construction once we get the go ahead to do so.

We appreciate your support as we work through the evolving processes to keep things moving forward.

• Lake Bed Restoration: The Lake Bed needs to be ready to have water replaced. Significant effort to have the Lake bed ready for water needs to be at the top of the list of every community member. This could include removal of silt, sand, clean-up of weeds and trees, docks, lifts, stumps, etc. This will take a concerted effort by all to make this happen. Please take the time to get engaged and work with your neighbors. Pay special attention to growing Willow Tree's as these need to be removed. Please call your Trustee's or DNR for any additional questions.

• Water Quality: Letters/Surveys have been sent to all Lake Delhi residents in cooperation with the Delaware County Sanitation Department. A sincere thank you to all of you who responded timely to this request. If you're one of those folks who didn't get the letter/survey or put it off for whatever reason, please don't delay! Please contact Dennis Lyons at the County Sanitation Department at Ph: 563-927-5925

• Property Transfer from the LDRA to the District: The District Trustees are in the final stages of working with the LDRA Board members on the last details of the transfer of property. Once complete, we will share with you the final outcome.

• Stay engaged and educated: The Trustees meet the third Thursday of each month and we often times call for special meetings to keep the momentum moving as quickly as possible. Please come and get involved as each of us plays a role in the recovery process.

The Combined Lake Delhi Recreational Facility and Water Quality District Trustee's:

Steve Leonard: President, Trustee

Larry Burger: VP, Trustee

Mary Kray: Secretary, Trustee

Laurie Kramer: Treasurer, Trustee

Bruce Schneider: Trustee

Lamont Davidson: Trustee

Larry Peter: Trustee

Lake Delhi Feature Family Story

“The McNamara’s” by Mary Kay McNamara

The McNamara Family: Ron and Mary Kay McNamara, Clair, Ryan and Megan

Ron and I started dating while he was living in a rented cabin up at The Cedars in 1984. He had been coming over to Delhi for a couple of years with other friends from Oelwein. I fell in love, not only with him, but with the lake. When we decided to get

LAKE DELHI VOICE

Monthly Newsletter of the Lake Delhi Taxing District and Community—June, 2013 Page 3

married we thought about moving off the lake. That didn't happen! We couldn't picture the future without the lake. We rented until we bought in 1988. It was just a chalet style summer cottage, 24 x 28, one bedroom in the loft and one wall heater. Over the next 10 years it became very crowded as we were blessed with two children in the early 90's, Clair and Ryan.

We had been dreaming of building a home with a real furnace instead of a water heater. So, in 1996, we started planning. Ron's mom drew the blueprints we would use on the back of a legal tablet. That fall our logs arrived from Missouri. In early spring, we started all the prep needed and moved into the same cabin up

The McNamara Family on Lake Delhi

in The Cedars. On April 25th we started to tear down and on May 5th we laid the first log. We built our dream home with the help of family and friends. We finished moving on Halloween Day, 1997. Our youngest daughter, Megan, was born on Halloween Day, 1998!

I hardly know where to begin sharing memories of the Lake. We had that little house so full at different times..... one Saturday morning we had 17 showers and five loads of wash done by noon! The yard looked like a campground and the neighbors in the lane would stop by wondering if we had another project going. We are always improving on something.

In the later years we started the "Stress Reduction Seminars". It is held on Fridays starting at 4:00 p.m. All are welcome. I am the first speaker with the same

speech every week. After that the floor is open. The stress never hangs around when you are on the deck, in the boat or playing on the lake.

We have had guests from coast to coast. Before 2010, we had friends and relatives that would "reserve" the parking spot and the weekend to come and stay. We have even had people stay when we had to go out of town for a wedding or funeral.

We have seen a lot of changes since 1984. We've had neighbors come and go, watched kids grow up and move on. They used to come back and visit but without a lake we sure don't see very many of them. I do believe when the lake is back the young people will be bringing their friends back also.

I can't imagine living anywhere else. The lake pulls something out of you and replaces it with the love of the water, the peacefulness, the color, laughter and the breeze in your face on a fast boat ride. We were meant to be here in God's own river valley...Lake Delhi... truly a slice of paradise here on earth.

What the Heck Is It? CONTEST

If you can successfully identify what this mystery thing is in the photo below, submit your email answer to LakeDelhiTrustees@LakeDelhi.org by or before the end of the day July 5th, 2013, and then be the one lucky winner drawn from all the correct responses — you will win a Lake Delhi T-Shirt of your choice in style and size!!! Good Luck!!! Put "What the Heck Is It Contest" in the Subject of your Email and put your answer in the body of the email along with your contact information.

Special Photo of the Month:

Picture of Lake Delhi Pre-2010 or this month in 2013?

No, this can't be a new photo from June 2013 at Lake Delhi, can it? Oh yes it can and it is. This photo taken by Brian Hughes from the shoreline by the Hughes' Cabin in Clair View Acres on June 2, 2013 shows the water level at or just above normal lake pool level at this location during flooding and high water in the Lake Delhi and Manchester area. Pictured is Josh Hughes looking completely bewildered, concerned, and maybe a little bit excited) by the site of a full Lake Delhi.... "Hmmm, I wonder if we could get the ski boat out?"

Please submit your special and interesting photo to us and we may include it in the newsletter. Submit your photo to LakeDelhiTrustees@LakeDelhi.org along with a description/explanation/story of the photo.

Calendar of Events:

Lake Delhi Taxing District Trustee Election Information

There are 2 Trustee positions that are being filled by this election, and you will vote for 2 of the candidates on the ballot. You can vote at the voting location on the day of the election 7/16/13, or you can vote by Absentee ballot from now until July 5th before the election. See the Election public announcement letter at: http://www.co.delaware.ia.us/election_docs/special/Lake%20Election%202013/PUBLIC%20NOTICE.pdf

Voting Via Absentee Ballot: If you are already registered to vote in Delaware County, then all you need to do is fill out and mail in an Absentee Ballot Request Form which you can access and print off at: <http://sos.iowa.gov/elections/pdf/absenteeballotapp.pdf>. If you are not registered to vote in Delaware County, then you just need to fill out and mail in both the IOWA Voter Registration Form (<http://sos.iowa.gov/elections/pdf/voteapp.pdf>) and the Absentee Ballot Request Form. Mail the forms to: County Auditor 301 E. Main St. Manchester, IA 52057

Voting the day of the election on 7/16: the voting location is at the Delhi Community Center at 316 Franklin Street, Delhi, IA; voting hours Noon—8 pm.

Lake Trustee Election Candidate Information

The Lake Taxing District Trustees developed a list of questions and asked each of the candidates to answer the questions. This information is being provided to you here no particular order.

Candidates on ballot - listed alphabetically by last name:

Lamont Davidson

David Fry

Todd Gifford

Rich Hughes

David Spaw

Lamont Davidson

Lake Delhi Neighborhood:

Hartwick Lake Club South (the former Ski Show site)

Why do you want to get elected to be a Trustee?

Having served this last year as an elected Lake Delhi Trustee, I would appreciate your support for re-election.

The Trustees and myself have accomplished many tasks on the path to dam reconstruction, however there is more work to be done and I want to see it through completion.

What experience's or background do you have that residents should know about? i.e.; number of years on the lake, organizations and issues you've been involved with in the past.

Fourteen years ago, my wife Wanda & I moved to Lake Delhi full time and have enjoyed it since the early 1970's when her parents owned a cabin here.

Some past involvements include:

- Lake Delhi Recreation Association board member
- Lake District Trustee
- Maquoketa River Water Quality Team
- Lake Delhi Fish & Game Club
- Christmas on the River
- Fireworks
- Delhi Lions
- Delhi Fire Department

What is your short term and long term goals of Lake Delhi?

My short term goal is to continue to work as a District Trustee to restore the lake as soon as possible, and long term is to ensure that the character and environment of

Lake Delhi is maintained.

What will you do as a Trustee to encourage these goals?

I will continue to work as a team player with the other District Trustees, while maintaining an objective view.

Email address: ladavid@iowatelecom.net

Phone Number: 563-922-3045

Todd Gifford

Lake Delhi Neighborhood:

Turtle Creek Camp

Why do you want to get elected to be a Trustee?

Although I have put in hundreds of volunteer hours for Lake Delhi by lobbying and presenting to State Legislators/County officials, raising money for the Community Fund to Rebuild Lake Delhi, helping with lake bed and property clean up, organizing fund raising events, attending and holding countless Lake Delhi meetings --- I would like to bring my vision, passion, abilities, and action orientation to a Trustee position in order to get Lake Delhi restored as quickly as possible as well as develop the best Lake Delhi future possible in all aspects.

What experience's or background do you have that residents should know about? i.e.; number of years on the lake, organizations and issues you've been involved with in the past.

- Co-founder of the *Lake Delhi Watershed Committee* as the primary Lake Delhi lobbying effort that obtained \$5 Million in State Funding and created the opportunity for \$3 Million of County Funding, while getting 3 State legislative bills passed making our \$6 Million local bond and State funding and permitting possible, and 3 to 7 Trustees.
- Conceived and Co-founded the *Community Fund to Rebuild Lake Delhi* which has raised \$1.7 Million to-date for the rebuild of Lake Delhi.
- Co-authored the *Lake Delhi Economic Impact Study* which was used as a primary reference resource in order to obtain State and County Funding.
- Participated in every Lake Bed Cleanup event held since the breach of the dam
- Participated on the Governor's Task Force representing Lake Delhi that was created by Iowa Governor Culver

LAKE DELHI VOICE

Monthly Newsletter of the Lake Delhi Taxing District and Community—June, 2013 Page 6

Todd Gifford—continued:

- Developed the Lake Delhi Wastewater system database and entered all of the data collected for submission to Delaware County and the DNR
- Attended and participated in countless Lake Delhi meetings with Taxing District Trustees, LDRA, Community Fund to Rebuild Lake Delhi, Fund Raising events, State Legislators, County Officials, Property owners, Communicating with Businesses, Farmers, and surrounding city/town officials.
- Business Owner for 18 years

What is your short term and long term goals of Lake Delhi?

Short Term Goals: Move through and overcome all regulatory and permitting hurdles that are in between now and actually rebuilding of the dam – *as quickly as possible*. This requires vision, tremendous action, negotiation skills, persistence, project management skills, and excellent communication skills, which I believe I possess to work effectively on your behalf. Getting the dam rebuilt quickly is my short term goal. The dam reconstruction needs to begin as soon as possible regardless of the obstacles that exist, and we need to push through any barriers in front of us to make this happen. I am uniquely qualified to help make that happen.

Long Term Goals: Sustainability of a high quality recreational and wonderful lake environment is my long term goal. By sustainability I mean: (a) financially sustainable – ensuring that we have a solid long term financial plan for Lake Delhi, and (b) sustained usability – which means ensuring the lake has pristine clean water, fantastic fishing and wildlife, boat navigatability everywhere boating should be able to be done, impeccable Dam operations, and positive relationships with State, County, and greater area officials and agencies as well as property owners.

What will you do as a Trustee to encourage these goals?

I will do my very best to bring vision, ideas, action, and results as a Trustee on your behalf. I look forward to working on the Trustee team as someone who can listen to others, provide valuable ideas, and take action and implement. I think I have demonstrated these qualities with the many volunteer commitments I have made up to this point. As an example, I conceived the idea and vision for the new *Lake Delhi Voice newsletter* from the Trustees as another way to communicate and inform — but also to inspire and educate.

Any additional information you would like voters to know about you that were not covered in previous questions?

I have a tremendous love and passion for Lake Delhi, which

is why I have invested and continue to invest so much time and energy into it. Lake Delhi is an extremely important place to many people, and it deserves my time and energy to get it back and make it great.

Contact information you would like to share with voters so that they can reach you to ask questions:

Rich Hughes

Lake Delhi Neighborhood:
Hartwick West

Why do you want to get elected to be a Trustee?

My experiences would bring a fresh perspective into the current trustee board. And to be a voice for all property owners.

What experience's or background do you have that residents should know about? i.e.; number of years on the lake, organizations and issues you've been involved with in the past.

Currently in my 3rd year on the Lake Delhi Recreation Association. Lead organizer of the Lake Delhi Annual Golf Outing for 5 years. Charter member of Eagles Club Monticello, IA. For my company; Hughes Advanced Industrial Services I have negotiated purchases and sales of other companies, properties, and large contracts. I feel my numerous business experiences would help me be a good negotiator with federal, state, local officials, and property owners.

What is your short term and long term goals of Lake Delhi?

My short term goal would be to negotiate aggressively, yet amicably with the agencies necessary to acquire the permits and start the rebuild. Long term goals would be to maintain the lake through water quality, shoreline maintenance, and dredging.

What will you do as a Trustee to encourage these goals?

I would like to get down to business and negotiate directly with the officials and agencies holding up our permits so we may start the rebuild A.S.A.P! Less politics, more down to business negotiations. (ne-go-ti-ate) to

Rich Hughes— continued:

confer or discuss with a view to reaching an agreement.

Any additional information you would like voters to know about you that were not covered in previous questions?

I've been enjoying Lake Delhi since the mid 1980's. I'd always hoped to live here one day. My wife and I met right here on Lake Delhi. My family has enjoyed the beauty of the lake which gives me great motivation in the restoration of the dam.

Contact information you would like to share with voters so that they can reach you to ask questions:

Email address: rsatais@yahoo.com

David Spaw

Why do you want to get elected to be a Trustee?

I am asking for your vote on July 16 for Trustee of The Lake Delhi Taxing District. As many of you know, being a trustee requires a lot of time and effort, especially in the last several years. I have always been a doer and not watcher, and I accept these duties. With the water gone, I have time to devote to The Lake Delhi Taxing District as Trustee.

What experience's or background do you have that residents should know about? i.e.; number of years on the lake, organizations and issues you've been involved with in the past.

I have enjoyed Lake Delhi for 37 years beginning in 1976 at my family's weekend cabin. In 1996 I bought my own home on the lake in Delhi Lakeview Estates (Camp-O) and became a full time resident. I hope to be a part of the Lake Delhi Community for years to come.

My qualifications include:

Employed at Hartwick Marina in sales, currently as needed until the water is back

Substitute Teacher, Maquoketa Valley Schools
Owner, Spaw Services, construction and business services

Volunteer for The Community Fund to Rebuild Lake Delhi. Attended planning meetings, Worked on selling raffle tickets and displaying the pontoon at various events, helped with setting up for community meetings, helped with distributing commemorative items to those who

made qualifying donations and helped with the temporary wall of fame at Hartwick Marina

Was part of the volunteers that went to the state capitol and served lunch to the state representatives and to inform them about Lake Delhi

Current Member, Hartwick Huskys Waterski Club
19 years; Board of Directors 13 years, Assistant Show Director 3 years, Show Director 4 years, Treasurer 5 years, Skier and Announcer

Member of Lake Delhi Recreation Association

Graduated from The University of Iowa and received a degree of Bachelor of Business Administration with a Major in Marketing and a Minor in Communications

What is your short term and long term goals of Lake Delhi?

As trustee my short term goal is to aid in getting our water back #1. I will take time to Identify current and future problems that hinder the progress of rebuilding the dam. Once the problems have been identified we can develop proactive plans and execute them

My long term goal is to identify Current and long term opportunities for Lake Delhi. By doing this we can build a solid future for our new Lake Delhi government, while retaining our long established Lake Delhi traditions and values. I believe there are many opportunities that are out there that we now qualify for. It all takes time that I have.

Any additional information you would like voters to know about you that were not covered in previous questions?

I look forward to discuss with you to address your questions and concerns about Lake Delhi or to just talk about your experience, old or new about Lake Delhi.

Contact information you would like to share with voters so that they can reach you to ask questions:

Phone: 563-920-3047 or Email: spawdav@yahoo.com

David Fry

Lake Delhi Neighborhood:

Hartwick West

Why do you want to get elected to be a Trustee? From the time the damn was breached, I have had the desire to work to rebuild this lake to

LAKE DELHI VOICE

Monthly Newsletter of the Lake Delhi Taxing District and Community—June, 2013 Page 8

David Fry continued:

the great place it has been for me and my family. I have been extremely involved in most aspects of the process we have been through so far. We have been presented so many challenges along the way, but with hard work, intelligent solutions/approaches, and perseverance, we have overcome them all. Our future success hinges on the decisions the Trustees will make in the future. I feel I am extremely informed on the issues, passionate about the future of Lake Delhi, and well qualified (based on my experience) to be a key part of the leadership team that will determine the future of this community. Now is a crucial time to have Trustees that are committed to not only attend meetings, but put significant effort into the rebuilding process. I have shown that ability and feel I can serve a vital role as Trustee of the Taxing District.

What experience's or background do you have that residents should know about? i.e.; number of years on the lake, organizations and issues you've been involved with in the past.

I have been on the Lake for over 20 years as a part-time resident. This summer I am moving to Lake Delhi and will be a full time resident. I have been a LEADER in: Governor's Task Force, Community Fund to Rebuild Lake Delhi, Lake Delhi Watershed Committee, and also currently serving as the lead authorized FEMA representative on behalf of the Trustees. I have been extremely involved in most of our successes for the rebuilding process. Those successes include: passing legislation for changes to the taxing district regulations allowing us to issue General Obligation Bonds, state funding for engineering studies and 5 Million in rebuilding funds, County Supervisor commitment of 3 Million to rebuild, private fund raising with the Community Fund to Rebuild Lake Delhi, as well as the 6 Million dollar bond issue the passed with a "state record" approval levels.

What is your short term and long term goals of Lake Delhi?

I, like most people on the lake, am very frustrated with the lack of any visible progress towards "starting the work" and "moving dirt" to get this dam rebuilt and the healing process started for our community and the general public good. My short-term goal is to get the rebuilding process started as quickly as possible using as much creativity, problem solving, intelligence and "get it done" attitude as humanly possible. My long-term goals for the lake include creating an fiscally responsible financial outlook for the taxing district, while managing significant issues like

water quality, siltation management, dredging, public access, etc.

What will you do as a Trustee to encourage these goals?

I think my record speaks for itself. I will be very active in the process of Leading the Lake to address all of these issues and goals. I feel you have to be committed, willing to get your hands dirty, have a passion for what you do, able to problem solve issues with "out of box" ideas, have the desire to lead and succeed, and be able to work with (and assemble teams) of people with talents that can address the issues. I also think there needs to be better communicate with our community to keep everyone informed and up to date on the issues we face and progress we make or don't make.

Any additional information you would like voters to know about you that were not covered in previous questions?

I think that voters need to understand that we continue to have hurdles placed in front of us as we move forward to rebuild Lake Delhi Dam and restore the Lake. WE MUST HAVE trustees that are willing to LEAD, have shown they are DEDICATED, and have the SKILLS to rebuild the dam, restore the lake, and heal our community. It is critically important that everyone vote for the candidate they feel will LEAD us forward. This election is as important as any in the past. We have to push forward to achieve success and not willing to settle for anything less. PLEASE VOTE!
